SUMMARY

I am a theoretical ecologist with a passion for math and computing. I have a strong quantitative background, with expertise in mathematical and statistical modelling of complex systems using big databases at large spatio-temporal scales. I have worked in many different fields of biology, from molecular muscle physiology to macroecology and biogeography. I am very open minded to other cultures and societies: I am Italian, my wife is Bulgarian, we met in Denmark, and we live in Germany. I am an avid reader of ancient history and I love sumo.

PROFESSIONAL EXPERIENCE

PostDoctoral researcher	01/10/2020 – Present
Theory in Biodiversity Science, German Centre for Integrative Biodiversity Research (iDiv), Leipzig, Germany	
Scientific consultant	01/05/2020 – 31/07/2020
Department of Bioscience, Aarhus University, Aarhus, Denmark	
Teaching assistant	01/02/2017 – 30/04/2020
Department of Biology, Aarhus University, Aarhus, Denmark	
Internship	15/07/2015 – 16/10/2015
Department of Biology, Florence University, Florence, Italy	

EDUCATION

PhD	01/02/2017 – 29/06/2020
Section of Ecoinformatics and Biodiversity, Department of Biology, Aarhus University, Aarhus, Denmark. Title of dissertation: <i>Megafauna extinctions, allometric scaling and biotic interactions: ecological effects and restoration opportunities through rewilding.</i>	
Visiting PhD student	15/09/2018 – 12/12/2018
Department of Ecology and Evolution, University of Chicago, Chicago, IL	
MSc in Biology	01/09/2013 – 31/04/2016
Department of Ecology and Evolution, University of Florence, Florence, Italy Title of dissertation: <i>Analysis of the movement and aggressive interactions between two species of ants of the Genus Lasius (Hymenoptera: Formicidae) through mathematical models.</i>	
BSc in Biology	01/09/2009 – 31/09/2012
Department of Physiology, University of Florence, Florence, Italy Title of dissertation: <i>The effects of myopalladin on the contraction mechanics of muscle fibers.</i>	

SKILLS

I have developed an outstanding mathematical and theoretical skill set and successfully applied it to investigate macroecological and biogeographical drivers of biodiversity. I also have experience with lab and field work, especially on surveys of Mediterranean plants and animals.

Languages Italian (native), English (fluent), German (A1), French (A1)

Programming R, python, bash, C/C++, Stan, javascript (mostly for Google Earth Engine), SQL (postgis flavor), GIS, High Performance Computing (HPC)

Software Linux/GNU, QGIS, Anaconda, RShiny, Jupyter Notebooks, L^AT_EX, Git, GitHub

Methods network theory, mathematical modeling, geographic information systems (GIS), geoinformatics, geomatics, remote sensing, biostatistics, data science, statistics, Bayesian inference, scenario analysis, trend analysis, ordination and classification, optimization, machine learning, species distribution models (SDMs), environmental niche modeling, community assembly, climate analyses, automation.

Relevant courses Plant biodiversity (focused on Mediterranean ecosystems; MSc), Ecophysiology and climate changes (MSc), Applied plant physiology (MSc), Statistics for experimental research (MSc), Mixed models (PhD).

Relevant lab courses Inorganic chemistry (BSc), Experimental physics (BSc), GIS for marine biology (MSc).

CONFERENCE TALKS AS PRESENTER

1. Bauer, B., **Berti, E.**, ..., & Brose, U. (2022). From regional to local scale: biotic interactions shape multilayer food-webs. *SFE-GFO-EEF biannual meeting, Metz, France*. [Invited talk](#)
2. **Berti, E.**, & Svenning, J.C. (2022). State-space models show that functional replacements of extinct megafauna have distinct habitat preference in a European rewilding area. *SFE-GFO-EEF biannual meeting, Metz, France*
3. Grenié, M., **Berti, E.**, Carvajal-Quintero, J., Winter, M., & Sagouis (2021). Matching Species Names Across Biodiversity Databases: Sources, tools, pitfalls and best practices for taxonomic harmonization. *TDWG annual meeting, online*
4. **Berti, E.** & Svenning, J.C. (2019). Megalinkers extinction and the decrease of ecosystem connectivity. *ESA annual meeting, Louisville, KY*
5. **Berti, E.**, Jarvie, S. W., & Svenning, J.C. (2018). Rewiring food webs via trophic rewilding. *BES annual meeting, Belfast, UK*

PEER REVIEW

As of February 2024, I have reviewed 7 papers for: Ecography (2), Ecology Letters (2), GigaScience (1), Scientia Agricola (1), and Methods in Ecology and Evolution (1). You can find more at my [WoS profile](#).

SUPERVISION AND MENTORING

I am formally co-supervising the PhD candidate Jingyi Li, who is developing a novel mathematical approach for functional responses based on information theory. In addition, I provide theoretical, computational, and statistical advice to several members of the TiBS working group at iDiv as well as individual mentoring for PhD students, advising especially on transferable skills and alternative career paths outside academia.

TEACHING & ORGANIZED WORKSHOPS

During my PhD, I taught one course every semester, as part of my salary was paid by Aarhus University on the basis of teaching. In addition, I have regularly organized workshops to teach reproducible research and open data principles and have organized a weekly journal club during my PhD and currently during my PostDoc.

- Theoretical Population Ecology (2023) – Teaching assistant (MSc course).
- Introduction to scientific programming and tidyverse (2022) ([slides](#)) – Lecturer (PhD course).
- Introduction to git and GitHub for a fool-proof programming (2022) ([course](#)) – Lecturer (PhD course).
- Meta-analyses for Biodiversity (2021) – Teaching assistant (MSc course).
- Statistical and Geospatial Modelling (2019) – Teaching assistant (MSc course).
- Behavioural Biology (2018, 2019) – Teaching assistant (BSc course).
- Geographic Information System (2017) – Lab assistant (BSc course).
- Cleaning online repository data for use in biogeography and macroecology (2019). – Co-organizer (Workshop).
- Running a species distribution model in R (2019) – Co-organizer (Workshop).
- A (very) gentle introduction to Linux (2019) – Organizer (Workshop).

COLLABORATIONS

I have moved several times to pursue my career dreams and, being a friendly person, I established personal and professional ties with the people I met. My network of current collaborators include:

- Prof. Jens-Christian Svenning, Aarhus University, Aarhus, Denmark.
- Prof. Ulrich Brose, Jena University, Jena, Germany.
- Prof. Daniel Reuman, Kansas University, Lawrence, KS, USA.
- Prof. Giacomo Santini, Università degli Studi di Firenze, Florence, Italy.
- Prof. Kai Yue, Fujian Normal University, Fuzhou, China.
- Prof. Neil Carter, University of Michigan, Ann Arbor, MI, USA.
- Ass. Prof. Susanne Vogel, Open University of the Netherlands, Heerlen, Netherlands.
- Prof. Fritz Vollrath, University of Oxford, Oxford, UK.
